

Sea the Change srl

Sustainable sea -based solutions

Profile

The startup was founded by 3 environmental economists and works as an economic bridge between private companies and NGOs that manage marine conservation projects. The main focus of its activities is to support the development of a sustainable Blue Economy. The startup is active in Italy, France, and Spain, working with private companies and cooperating with non-profit organizations such as Fondazione Cetacea, Anellides, and Social Tides.

Suitable Experience

- **MedBan ITTT call-supplier (2023)**

5 projects presented by Sea the Change with clients from the Blue Economy sector have been granted. All the proposed projects include support in communicating to external stakeholders marine ecosystem conservation actions.
