

WHO WE ARE

Design4rent – premium rental for events, congresses and trade fairs

Design4rent is a premium rental company specialising in design furniture rental, architectural lighting rental, walls and trade fair stands, dinner design, plant hire and decoration.

At Design4rent we specialise in providing rental services to trade fairs, exhibitions, conferences, conventions, incentives, private events, weddings, outdoor events, roadshows, training events and product launches, as well as art, cinema, music and culture festivals. Founded in 2004, Design4rent is a privately owned company which operates throughout Europe and has offices in Italy, France and Austria. Our strength is our extensive range of products which allow us to style events for up to 5000 guests.

Design4rent offers a unique and bespoke 360° service to our clients. We have a wealth of experience working for top international brands at many of Europe's most prestigious and logistically-challenging locations, making us experts in space planning and management. We are proud to offer our clients tailor-made proposals which meet their every expectation. Our experienced production managers offer a professional on-site event service, which includes overseeing the transport teams as well as supervising the set-up and dismantling of the products.

WHAT MAKES US UNIQUE

At Design4rent creative thinking is at the forefront of everything we do. We pride ourselves on bringing beauty, style and innovation to all our trade fairs and events. We focus on ensuring all of the little details are taken care of as we work with our clients to bring their vision to life. We offer an in-house premium graphics personalisation service which enables us to tailor all our event rentals to our clients' corporate identity. Our innovative outlook led us to launch our e-shop in 2009, to-date we are still one of the only rental companies to offer this service. Our e-shop allows clients to choose from an extensive range of products while checking real-time availability. It also allows our clients to organise the delivery of the products and confirm and pay online. It's through innovations like this that Design4rent has established itself as one of the market leaders in the premium furniture rental market.

SUSTAINABILITY

Design4rent is the only event rental company to have implemented an eco-friendly product philosophy. We insist on using high-quality materials to ensure the longevity of a product and where possible, we repair and exchange parts of the furniture, to renew existing products and avoid product waste. All of our packagings consists of reusable wood and cardboard which we dispose of diligently. At Design4rent, we recycle 80% of all materials in-house leading to a second or third lifecycle for many of these materials. 80% of our waste products are limited to a plastic film that is 100% recyclable. At Design4rent, we purchase the majority of our products in Italy and mainland Europe, as we believe in supporting local business and minimizing our impact on the environment. We are leaders in our sector, due to our focus on purchasing premium products from premium design brands such as Kartell, Driade, Zanotta, Flos and many more. Since 2005, we have donated ex-rental furniture to schools and public buildings. Design4rent offers any leftover materials to art teachers and educators so the material can be used again.

Design4rent has been certified UNI ISO 20121:2013, released by the leading classification society TÜV NORD. The compliance to the 20121 standard guarantees the capacity to plan and manage sustainable events and trade fairs with a positive economic, social e environmental impact respecting the national and EU laws.
